

Electron Y DOCA

Fitted value of par[2]=Sigma

Positron Y DOCA

Fitted value of par[2]=Sigma

Top Electron Y DOCA

Fitted value of par[2]=Sigma

Top Positron Y DOCA

Fitted value of par[2]=Sigma

Bottom Electron Y DOCA

Fitted value of par[2]=Sigma

Bottom Positron Y DOCA

Fitted value of par[2]=Sigma

Electron X DOCA

Fitted value of par[2]=Sigma

Positron X DOCA

Fitted value of par[2]=Sigma

Top Electron X DOCA

Fitted value of par[2]=Sigma

Top Positron X DOCA

Fitted value of par[2]=Sigma

Bottom Electron X DOCA

Fitted value of par[2]=Sigma

Bottom Positron X DOCA

Fitted value of par[2]=Sigma

all pairs

$p(e+e-) > 0.8 * E_{\text{beam}}$

$p(e+e-) > 0.8 \cdot E_{\text{beam}}$
