MDC status

- Mock data sample status:
 - ▶ Primary generators: done running
 - ▶ SLIC: done running
 - ▶ Readout simulation: running, 15/25 done
 - ▶ Recon: current recon ready to run, done on 1/25 sample
 - ★ May get updates (SVT pileup fitter) in before readout is done
 - ▶ DST: ready to run, done on 1/25 sample
 - ★ Updated last month to merge 10 recon runs into each DST
- Tridents with truth information: 1/25 done — how much do we want?
- Small samples (A', BH, radiative): still need to set up
